Ordering/Measuring Instructions

- Determine the size you will need for a shade mounted inside a valance. For **clearance width**, measure the inside width of the valance for windows with only a top valance (fig. 1a). For windows that have valances with sides, measure the inside width of the valance at the top, middle and bottom and record the measurement with the shortest inside width. (fig. 1b) For **drop length**, measure from the top of the valance to the bottom of the window (fig. 2). Obtain these measurements for each window and record them on the **Shade Order Form**. *Please do not measure existing shades or window.* **Note: The material will be 1 1/2" smaller than the clearance width.**

Record measurement with the shortest inside width.

- Determine the price of your shade by using the **MCD Retail Price Guide**. For single roller shade pricing (solar or light blocking) use the **American Solo®** Chart. For a dual roller shade system (solar and light-blocking) use the **American Duo®** Chart. If you would like to power one or both rollers in a shade assembly, pricing can be found in the **Available Options** section of the price list. If you choose one of the upgrade fabric materials, the applicable pricing can also be found in the **Fabric Upgrade** section of the price guide.
- Complete each section of the **Shade Order Form** and fax to 972.542.4881. A MCD Representative will contact you to finalize the details of your order and address any questions you may have.

How To Figure Pricing

Manual Shade:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Base Material Upgrade Total Price
(if desired)

Combination (Manual Day and Powered Night):

$$\underline{\hspace{2cm}} + \underline{\$165} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Base (Manual) Motor (1) Material Upgrade Total Price
(if desired)

Full Power (Powered Day and Powered Night):

$$\underline{\hspace{2cm}} + \underline{\$330} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Base (Manual) Motors (2) Material Upgrade Total Price
(if desired)

Don't forget to order remote controllers for Combination or Full Powered Shades.
